

Premier Pits in Norway

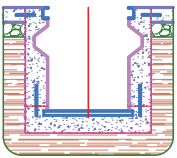

Norwegian companies involved in commercial vehicle, bus, coach and car maintenance and inspection are now able to take advantage of the many benefits provided by Premier Pits' pits.

Premier Pits have been supplying the UK and other markets with prefabricated steel vehicle pits for over 30 years. During this time we have introduced many product and installation innovations, making our pits a sophisticated and essential piece of workshop equipment.

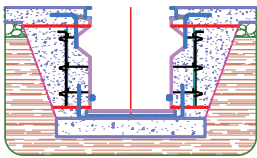

Many of the biggest names in the industry including **Scania, Volvo, Mercedes** and **Unipart**, work with Premier Pits. We have also supplied and installed pits for several prestigious projects, including the train maintenance pits at the new **Heathrow Terminal 5** at 12.5m below finished floor level.

PremierPits®

PREFABRICATED VEHICLE PITS

THE UK'S LEADING MANUFACTURER AND INSTALLER OF
PREFABRICATED VEHICLE PITS.

WHAT IS A PREFABRICATED PIT?

Premier Pits' prefabricated pits are manufactured from steel in a modern factory, under strict quality control conditions, then delivered in one piece direct to site ready for installation. While under construction the pits are fitted with the accessories and extras specifically requested by customers.

WHY CHOOSE A PREMIER PIT?

We have manufactured and installed approximately 3000 prefabricated pits for a vast range of different clients. This has enabled us to develop the unique **PREMIER PITS PACKAGE**, which involves everything from help with initial concept through to commissioning.

WHERE ARE THEY USED?

Typical users include:

- Transport and logistics companies
- Coach operators
- Bus companies
- Train and tram operators
- Airports for tow tugs etc.
- Designated testing stations

WHAT ARE THE BENEFITS OF USING PREFABRICATED PITS?

There is a vast range of benefits for the operator, the specifier and the contractor, some of the key ones are:

- Installation savings
- Greater workshop efficiency
- Improved working conditions
- Enhanced workshop safety
- Watertight
- Increased property values

Working/maintenance pits

Inspection pits
