

Safety Cover Range

Budget Safety Cover Patent application no. 090479.8

NEW

For many years Premier Pits Motorised Safety Covers have been making a significant contribution towards improving safety in vehicle workshops. To help companies with their safety commitments during these more difficult economic times Premier Pits have introduced The Budget Safety Cover. Based on the same concept, this new cover offers similar benefits at a budget price.

Features

- May be fitted onto new and all existing pits
- Manual pull over operation
- Mounted onto track and fitted onto the jacking rail
- Yellow for maximum awareness
- Fire retardant

Benefits

- Enhanced safety
- Cost savings – product and installation
- Full or part closure option

Motorised Safety Cover Patent no. GB2373227

The leading pit safety cover on the market, with many additional features.

Features

- May be fitted to existing Premier Pits and other pits with a large jacking rail
- Automatic operation
- Safety warning alarm and lights fitted
- Front pressure bar that locates obstructions for an emergency stop
- Fire retardant

Benefits

- Enhanced safety
- Adjustable to suit all lengths of vehicles
- Quick and easy way to cover pits when not in use
- The highest quality safety cover on the market

PremierPits®

PREFABRICATED VEHICLE PITS

THE UK'S LEADING MANUFACTURER AND INSTALLER OF
PREFABRICATED VEHICLE PITS.

WHAT IS A PREFABRICATED PIT?

Premier Pits' prefabricated pits are manufactured from steel in a modern factory, under strict quality control conditions, then delivered in one piece direct to site ready for installation. While under construction the pits are fitted with the accessories and extras specifically requested by customers.

WHY CHOOSE A PREMIER PIT?

We have manufactured and installed approximately 3000 prefabricated pits for a vast range of different clients. This has enabled us to develop the unique **PREMIER PITS PACKAGE**, which involves everything from help with initial concept through to commissioning.

WHERE ARE THEY USED?

Typical users include:

- Transport and logistics companies
- Coach operators
- Bus companies
- Train and tram operators
- Airports for tow tugs etc.
- Designated testing stations

WHAT ARE THE BENEFITS OF USING PREFABRICATED PITS?

There is a vast range of benefits for the operator, the specifier and the contractor, some of the key ones are:

- Installation savings
- Greater workshop efficiency
- Improved working conditions
- Enhanced workshop safety
- Watertight
- Increased property values
