

Premier Pits®

PREFABRICATED VEHICLE PITS

THE UK'S LEADING MANUFACTURER AND INSTALLER OF
PREFABRICATED VEHICLE PITS.

WHAT IS A PREFABRICATED PIT?

Premier Pits' prefabricated pits are manufactured from steel in a modern factory, under strict quality control conditions, then delivered in one piece direct to site ready for installation. While under construction the pits are fitted with the accessories and extras specifically requested by customers.

WHY CHOOSE A PREMIER PIT?

We have manufactured and installed approximately 3000 prefabricated pits for a vast range of different clients. This has enabled us to develop the unique **PREMIER PITS PACKAGE**, which involves everything from help with initial concept through to commissioning.

WHERE ARE THEY USED?

Typical users include:

- Transport and logistics companies
- Coach operators
- Bus companies
- Train and tram operators
- Airports for tow tugs etc.
- Designated testing stations

WHAT ARE THE BENEFITS OF USING PREFABRICATED PITS?

There is a vast range of benefits for the operator, the specifier and the contractor, some of the key ones are:

- Installation savings
- Greater workshop efficiency
- Improved working conditions
- Enhanced workshop safety
- Watertight
- Increased property values

GROWING DEMAND

To answer the growing demand from those involved in car maintenance and inspection, Premier Pits has added Class 4 ATL pits to their range.

PREMIER PITS' VAST EXPERIENCE

For almost thirty years Premier Pits has been manufacturing and installing prefabricated steel pits for the C.V. and coach and bus sectors. There are now almost 3000 of our pits in daily use across the UK and Ireland. Customers range from small independent transport operators to national bus companies and BAA.

BENEFITS OF PREFABRICATED PITS

Car garage operators are realising that prefabricated steel pits have a lot to offer that lifts can't provide, including:

- Negligible maintenance costs
- Suitability for garages with low headroom
- Better upward lighting
- Environmentally friendly

FEATURES OF PREMIER PITS' PITS

Class 4 ATL pits are made and installed to very high quality standards and include:

- Water tight construction
- A range of safety options
- Built in services such as air and oil
- Radius plates
- Check wear sump to suit
